

Tabular Editor

WEBINAR | February 4, 15:00-15:45 (CET)

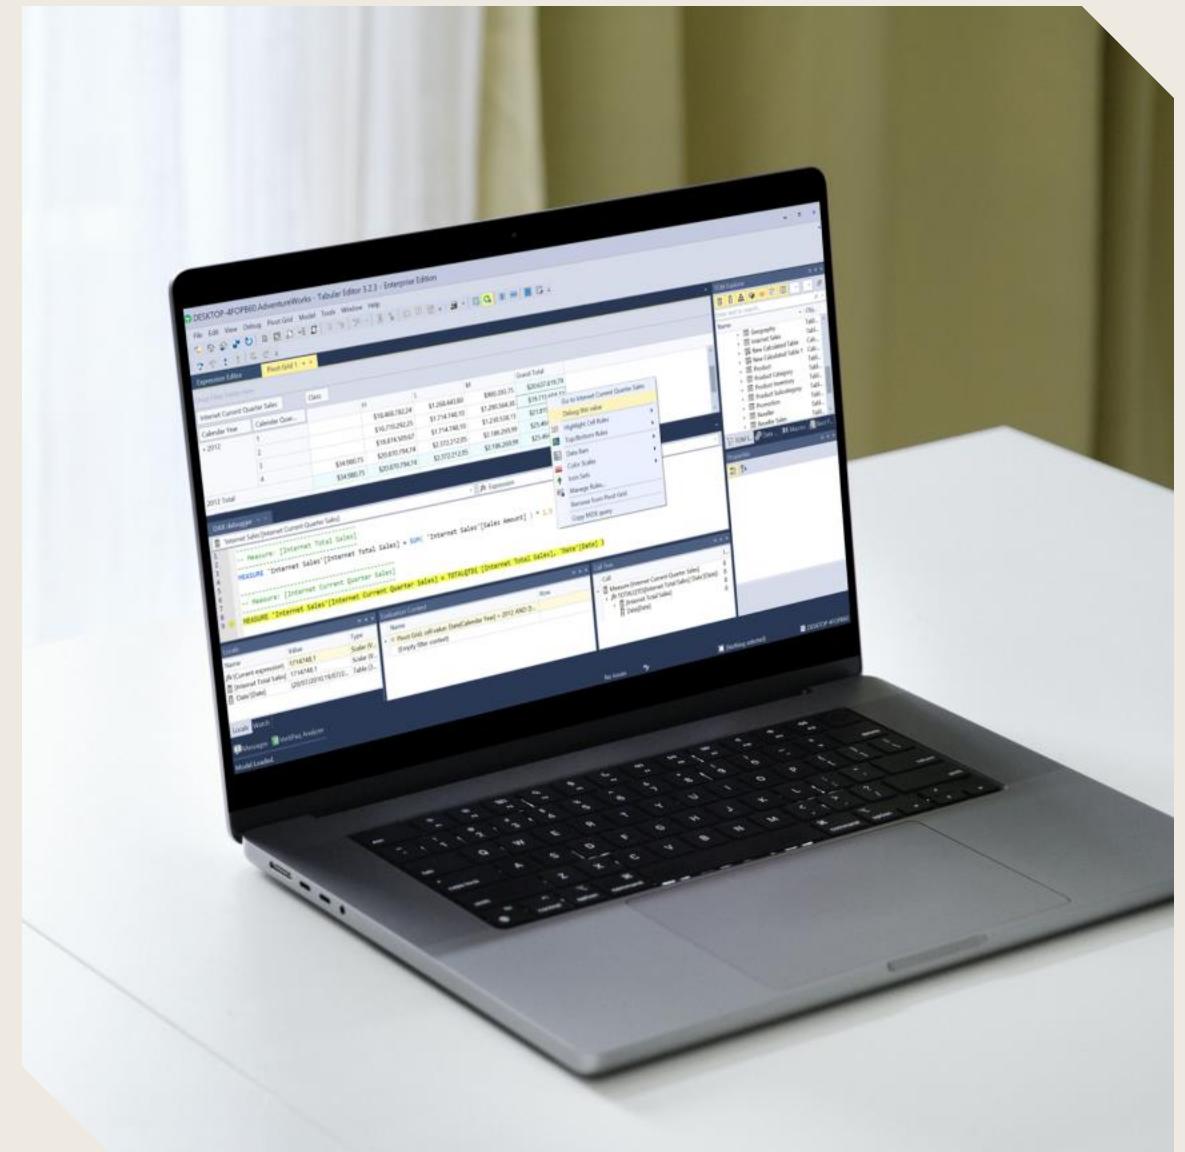

Scripting and automation in Tabular Editor

With hosts Daniel Otykier & Greg Baldini

Before we start

- Our team will be available to answer questions throughout the webinar. You can ask them by clicking "Questions" in the lower right corner of the screen.
- You can use the chat (also in the lower right corner) if you experience technical problems.
- We will send a recording of the webinar immediately after it ends.

Tabular Editor

Poll

What is your experience with C# scripting in Tabular Editor?

Agenda

Where scripting fits in semantic modeling

C# Script API in Tabular Editor

Extended examples

Automatic time intelligence setup

Packaging UDFs for reuse

Querying and LLM use

Code organization patterns for reuse and maintainability

Tabular Editor

How we continue to enhance and evolve Tabular Editor 3

- We're committed to continuously improving Tabular Editor 3 through your feedback, ideas, and collaboration.
- Join the conversation in our [**GitHub Discussions**](#) forum.
- Share your thoughts in the chat

Share your thoughts

What kind of topics would you like for future webinars?

Let us know in the chat.

Tabular Editor

See us in the future

In person

- Fabric February in Oslo, Norway; February 5
- SQL Konferenz in Hanau, Germany; March 2-4
- Power BI Gebruikersdagen in Utrecht, NL; March 5-7
- FabCon in Atlanta, USA; March 16-20
- SQLBits in Newport, Wales; April 22-25

More webinars

- March 4, 2026: Descubre Tabular Editor 3: la herramienta que eligen los profesionales de datos
- March 5, 2026: 探索 Tabular Editor 3 — 以及为什么数据专业人士都热爱它

Key takeaways

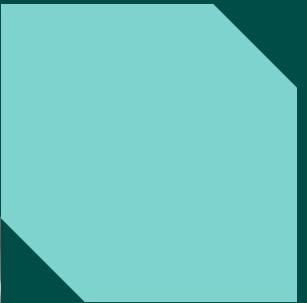

- Try out one of the scripts from our demos or in our docs today
 - Identify one task you repeat repeat repeat repeat repeat a lot and make a macro for it
 - Check out docs for scripting
 - Share your scripts with your team and the community
 - Experiment with LLMs - they are actually pretty good at writing C# scripts!

Wrap up and time for questions

Tabular Editor

Thank you
for your time!
